Report for column **testvar**

Type	integer
Total number of rows	11
Number of rows with data	4
Completion percentage	36.36%
Number of rows with constraint violations	3
Number of rows with datatype violations	3
Data Cleansing applied?	No

Statistics Table

Mode (most frequent value)	3
Number of occurrences for most frequent value	2
Minimum value	3
Maximum value	5
25% of records are below this value(limit value of the first quartile)	3
50% of records are below this value (median)	3
75% of records are below this value(limit value of the third quartile)	4

Suggested corrections for datatype violations

5.6	5

Suggested corrections for constraint violations

Values that will be replaced with null

2, not_int, 20191212, 2.5, 1,
